

# HEMERA

Comfortable, luminous and dynamic, the Hemera is a mix of a "coupe" and a break. Elegant, refined, with its dazzling design and distinct urban style, the Hemera features a spacious open interior, accentuated by its unique glass bubble, creating a new driving experience. Discreet luxury and authentic emotions, the aesthetics truly dynamic of the Hemera makes it the perfect car for whom driving rhymes with pleasure.

#### ENGINE

Engine position: transverse mid engine  
 Number of cylinders: 4 aligned  
 Cubic capacity (bore x stroke):  
 1.598 cm<sup>3</sup> (77 x 85,8 mm)  
 Number of valves: 16, twin over/under  
 camshaft, BMW Valvetronic  
 Power Supply: multi-port direct  
 injection, turbocharged

#### TRANSMISSION

Maximum power: 135 Kw (184 ch DIN)  
 from 5.400 to 6.450 rpm  
 Maximum torque: 240 Nm (24,4 mkg)  
 from 1.600 to 5.000 rpm, 260 Nm  
 in over-boost during 10 sec between  
 1.730 and 4.500 rpm  
 Compression level: 10,5:1  
 Depollution system: 3-way catalytic  
 converter

Brakes: 4 ventilated discs  
 Wheels: 7 x 17 alloy wheels  
 Tires size: 205/40 ZR 17  
 Steering: pinion steering  
 Turning circles between curbs: 9,40 M

#### WEIGHT, VOLUMES AND DIMENSIONS

Kerb weight: 1.012 kg  
 Fuel tank capacity: 42 liters  
 Trunk capacity: 240 dm<sup>3</sup>  
 Length: 3.735 mm  
 Width: 1.735 mm  
 Height: 1.307 mm  
 Wheelbase: 2.261 mm  
 Front and Rear Track: 1.440/1.430 mm

#### PERFORMANCE AND CONSUMPTION

Maximum Speed on Track:  
 225 km/h max  
 Fuel consumption: in liters  
 (Unleaded 95RON): urban/extra urban/  
 combined drive cycle: 10,4/5,9/7,6  
 CO<sub>2</sub> Emission: 1,75 g/km

6 different colors for the soft top

# OUR HISTORY

PGO Automobiles started its journey a little over twenty years with, in the driver's seat, two Car enthusiasts whose initials gave the name to the brand: Prévôt Gilles and Olivier. At the time, the activity was turned towards the production of car replicas. Until the 90s, production was on a small scale.

## 2002 The Start

In order to consolidate its development, the enterprise calls upon public investment. In February, the company became listed in the Open Market at the Paris Stock Exchange. Thus, the Engineering and Design departments and the Production workshop worked hand in hand to bring the Speedster II to life.

## 2003 On the road

The Speedster II is homologated and the first deliveries can begin.

## 2004 First flashes

Saluted by the press at the time for its technical qualities as much as for its aesthetics, the Speedster II was selected the same year to illustrate the official poster of the 15<sup>th</sup> Coupe & Cabriolet Motor Show.

## 2005 Brand new project

Strong from the success of Speedster II, the brand decides to widen its range of production and the first deliveries of the Cevennes, with a more sporty and modern body, take place.

## 2006 A real jewel

For its 4<sup>th</sup> World Motor Show, PGO Automobiles presents its

## 2000 First appearance, first fascination

PGO Automobiles reveals at the Paris Motor Show, the prototype of a completely new car: The Speedster II. This roadster completely marks the determination of the brand to offer its customers a car with a neo-retro design allowing modern features in terms of design, engine and architecture. PGO Automobiles became a full-fledged car manufacturer.

## 2001 First Steps

The establishment of PGO Automobiles on a production site of almost 18,000 m<sup>2</sup>, near the Pôle Mécanique d'Alès in the Gard department (South of France), was the starting point for the technical development of the Speedster II and for the boom that PGO Automobiles has known in just a few years.

automotive jewel: the Beauty, born from a brilliant collaboration with Swarovski.

## 2007 Expanding

PGO Automobiles decides to go worldwide as its vehicles correspond to an international client base eager for distinctive and truly extraordinary products.

## 2008 A new bid

Combining the French traditional craftsmanship with the latest technology, PGO Automobiles presents its latest model at the World Motor Show of Paris: the Hemera. Comfortable, bright and vibrant, this "coupe" maintains all the elegance of PGO that obtains ISO 9001 certification in May.

## 2009 Europe

This year sees the star of production and release of the Hemera. The entire range benefits from the European Small Series Approval (Directive 2007 / 46/EC), the sales territory expands naturally and automatically to all 27 countries of the European Union.

## 2010 Bringing it to the Capital

The manufacturer opens his Paris showroom which is located in Neuilly sur Seine, close to Porte Maillot. With a 1,30 square meters, it offers a space dedicated to the world of PGO Automobiles.

## 2011 Passion

Enthusiast owners of PGO cars decide to create the club "PGO Passion". Members of this club are passionate PGO owners who wish to develop a community about sharing a world of exchanges, encounters and travels. Since then, many organized events are taking place uniting pleasure and passion.

## 2012 Power

PGO Automobiles and the BMW Group have signed on February 29<sup>th</sup> a contract for engine supply. This contract made between the French manufacturer and the prestigious German brand allows PGO Automobiles to benefit from leading technologies in terms of engine. The arrival of an engine from BMW allows our models to be even more efficient, more attractive and more innovative but also energy-saving and more eco-friendly.

## 2012 "Rendez-vous" ...

PGO Automobiles looks forward to seeing you on our stand, September 29<sup>th</sup> 2012, at Porte de Versailles for the World Motor Show... Combining, as always, as much pleasure, innovation and originality.
